

INFECTION PREVENTION – CLOSE TO PERFECTION

What's required for regulation compliance

2-3 hour course

DESCRIPTION of COURSE:

This course, which can be specifically tailored to a state or province, will provide current information and guidelines for safe treatment of patients and protection of dental professionals.

Infection Control recommendations and guidelines from OSAP, IPAC, CDC and various state as well as provincial resources will be presented and discussed. Infection control review with the office team aids in follow through in the office on a day-to-day basis as well as development of office systems.

Each participant will leave with a wealth of references to utilize in the establishment of office protocols. Let's talk about what the recommendations / guidelines advise should be done then evaluate what we are currently doing!

This course will provide information for the clinicians to be able to:

- Recognize the specific requirements and how they can be incorporated into every day practice
- Differentiate the guidelines for various sterilization process; hand washing and patient protection
- Demonstrate effective cleaning and disinfectant techniques in the operatory
- Distinguish what changes are necessary in your office setting
